Sir/Madam,

As you are aware, All India Council for Technical Education has been mandated under the Act of 1987 to ensure maintenance of courses and standards with regard to technical education in the country. In exercise of this mandate the Council insists on fulfillment of the minimum requirements prescribed for imparting technical education in the institution so that quality of courses is not compromised and stakeholders are assured. The Council also undertakes an annual inspection of the institutions and conveys deficiencies to them for rectification.

It has been observed however that notwithstanding the Council's repeated advice to comply with minimum norms and standards, many institutions continue to be complacent about taking steps to remedy the deficiencies.

Such institutions suffer from critical deficiencies of faculty in proper cadre ratio, qualification, experience and other requirements. Feed back of students with regard to quality of education imparted by such institutions has evoked grave concern. The Expert Committees, following holistic appraisal during inspections, have also pointed out severe shortcomings.

The institution has been found to be suffering from several deficiencies, which are listed in Annexure-A for your perusal. Shortage of faculty is of gravest concern.

The deficiencies in respect of faculty (including proper cadre ratio & qualification etc.) could have rendered your institution liable for punitive action including being placed in no admission/ reduced intake category. However the Council has decided to take a lenient view and give you yet another last opportunity to rectify the deficiencies particularly with regard to faculty shortage, proper cadre ratio & requisite qualification. Course-wise approved intake in respect of SREE NARAYANA GURUKULAM COLLEGE OF ENGG. KADAYIRIPPU, P.O. KOLENCHERY, ERNAKULAM-682 311 KERALA, your institution for the year 2005-06 is as under: -
